

**STATE OF CALIFORNIA
ENERGY RESOURCES CONSERVATION
AND DEVELOPMENT COMMISSION**

Implementation of Climate Change)	Docket No. 01-GGE-1
Legislation (Health and Safety Code)	Notice of Workshop
Section 42800 et. seq. [SB 1771, SB 527]))	RE: Greenhouse Gas Emissions Guidance
_____)	to the California Climate Action Registry

**Staff Workshop on Greenhouse Gas Emissions
Guidance to the California Climate Action Registry**

The California Energy Commission will conduct a public consultation meeting to discuss guidance to the California Climate Action Registry at the following time and location:

FRIDAY, DECEMBER 14, 2001
9:30 a.m.
CALIFORNIA ENERGY COMMISSION
Hearing Room A
1516 Ninth Street
Sacramento, California
(Wheelchair Accessible)

Senate Bill 1771, chaptered in September of 2000, specified the creation of the non-profit organization, the California Climate Action Registry (Registry). The Registry will help various California entities to establish greenhouse gas (GHG) emissions baselines. Also, the Registry will enable participating entities to voluntarily record their annual GHG emissions inventories. In turn, the State of California will use its best efforts to ensure that organizations that voluntarily inventory their emissions receive appropriate consideration under any future international, federal, or state regulatory regimes relating to GHG emissions.

On October 13, 2001, Governor Davis signed Senate Bill 527 (SB 527) into law. This bill requires the Commission to provide guidance to the Registry on a number of issues, including developing GHG emissions protocols, qualifying third-party organizations to provide technical assistance, and qualifying third-party organizations to provide certification of emissions baselines and inventories.

As an initial step in fulfilling these requirements, the Commission will hold a public consultation meeting to discuss the implementation of SB 527. At the meeting, the Commission staff and others will present the requirements of SB 527, a Registry overview, an overview of existing GHG protocols and programs, key activities to be undertaken to implement SB 527, and the

proposed timetable for those activities. During the meeting, participants will also have opportunities to discuss roles of the various stakeholders, and key topics and issues in developing the guidance.

To identify the issues for discussion during the last part of the consultation meeting and to finalize the agenda, several questions are attached that will need to be addressed. If you would like to share your perspectives on these questions, please contact Jeff Wilson by e-mail at jewilson@energy.state.ca.us or by mail at:

CALIFORNIA ENERGY COMMISSION

Attn: Jeff Wilson

1516 Ninth Street, MS 41

Sacramento, California 95814-5512

If you wish your comments to be retained as part of the public record, please refer to Docket No. 01-GGE-1 in your submittal.

To assist the Commission staff in carrying out the requirements of SB 527, a work group of interested parties will be established. The work group will be advisory in nature and serve as a forum for on-going communication, cooperation, and coordination in exploring implementation issues and potential solutions. It is anticipated that this work group will meet primarily via e-mail. Physical meetings will not be held unless necessary to accomplish the goals of the group.

Future notification for this Guidance project will be limited to those individuals that have indicated an interest by returning the Participation Form. If you have received this notice via e-mail and if you would like to be a member of the group, or, if you would like to be notified of future Commission meetings or activities related to the California Registry via e-mail, please complete and e-mail the attached Participation Form to [\[climatechange@energy.state.ca.us\]](mailto:climatechange@energy.state.ca.us). Individuals receiving this notice via regular mail and without internet access may request to be a member of the work group or be placed on a mailing list by indicating so on the enclosed Participation Form.

A tentative timeline for the development of Commission guidance to the California Climate Action Registry is as follows.

1 st Commission Public Meeting	2 nd week of December
Work Group Input and Review	2 nd week of December through the 4 th week of January
Draft Chapters for Public Comment	4 th week of February
2 nd Commission Public Meeting	3 rd week of March
Registry Board Meeting	3 rd week of March

Links to the notice, agenda, meeting questions, and participation form can be found below.

December 14, 2001 Consultation Meeting - GHG Registry
